

Glory in the Mountain

Refrain: There is glory in the mountain.
There is power in the sea.
But the flower is the beauty
of the love that's in you and me.

Well inside us there's a lot of things
that were made for the good of the world.
The power and glory of God Himself
and the love that is his word.
But power can be blinding
and glory can be wrong
If we forget about the lovin' things
that really keep us strong. **Refrain**

The word that's born inside of us
can set the world on fire.
The power of God is calling us
that we might all aspire
to touch the edge of heaven
by the power of his might
and turn aside the tide of fear
and step into the light. **Refrain**
