

Holy Spirit, How You Guide Us

Refrain: Holy Spirit, How You guide us
in our dealings great and small.
Every wonder we discover, every truth that we uncover,
it is You behind them all. It is You behind them all.

When the symphonies were written by the masters of the past,
it was your voice that was singing from the first note to the last.
You hold the sculptor's chisel and you guide the painter's hand
and You help us in our thinking as we seek to understand. **Refrain**

From the medical advances that can help our bodies heal,
To the architectural wonders born of wood and glass and steel.
From the light bulb to the smart phone, all the tools that we've acquired,
To the cinematic wonders and the writings You've inspired. **Refrain**

And in every land and nation where you see advances flower,
on the edges of our knowledge we will find your quiet power.
So we thank you for the prophets that were sent to help us all,
from Einstein to Edison, to Isaiah, John and Paul. **Refrain**

It is you inside the magic, working hard behind the scenes
bringing vision, inspiration, and inviting us to dream.
And we thank You, Holy Spirit, who brings power from above
in the gift of light and wisdom and the scriptures that we love. **Refrain**
