

# To Be Like Little Children

Mark:13-16

Fairy Godmother sail  
from your book of fairy tales  
and grant us wishes three  
for peace and harmony  
and set the child inside us free.

In each woman and each man  
lies a place where as a child they ran  
where love and life ran wild  
and only as a child  
could we really understand.

Now we're older and so wise.  
All involved in projects of great size.  
Our child we dare not show  
for everybody knows  
fairy tales are only lies.
