

Gabriel

Refrain: Gabriel swingin' on a
mountaintop with your golden horn.

Blow me down a melody
that has never before been born
and I'll make a song for Him. **2x**

Splashin' around in my troubles.

Everyone throws me a line.
How can I think with 'em double
talkin' me out of my mind.

Open your heavenly portals
let all your light shine
down here with all of these mortals
someone is walkin' around.

Tell the Man in the clouds that
I can't pray no louder! **Refrain**
