

# If We Were Gods

John 10:34 Psalm 82:6

If I were God all pain would end,  
no child would ever starve again.  
If I were God all war would cease,  
humanity would live in peace.

For people-kind disease would end  
and no one would get sick again.  
Pollution would forever cease  
and nature do her work in peace.

If I were God I would command  
that all things we would understand,  
and we would know the meaning of  
the universal law of love.

If I were God my thought would be  
to make all people God like me,  
and we would live eternally  
and to creation hold the key.

If we were God we'd be the birth  
of heaven right down here on earth.  
And we could reach the farthest star  
if we were God. Thank God we are!

And thus can we achieve all things.  
For with the wisdom knowledge brings  
all limitation stands disbarred  
for those aware of what they are.
