

May Peace Prevail

High above the lines we've drawn
a globe with all its boundaries gone
is seen from from stars we wish upon.
May peace prevail.

Across the earth in places far
where people pray just as we are,
we cast our wish on one same star.
May peace prevail.

May peace prevail. May peace prevail.
Across this earth may peace prevail.
May peace prevail. We send it out from here.
In spite of all the fear, the vision remains clear.

And for the children of tomorrow
we put away the pain and sorrow
and from their dreams this wish we borrow.
May peace prevail.

We join the boundless energy
of one world-wide community
of those whose love will turn the key.
May peace prevail.

May peace prevail. May peace prevail.
Across this earth may peace prevail.
May peace prevail, from the center of our hearts,
touch the world at every part.
Let's let the giving start.

High above the lines we've drawn
a globe with all its boundaries gone
is seen from from stars we wish upon.
May peace prevail.
May peace prevail.
May peace prevail.
