

# Grapevine

Sung to melody "Heard It on the Grapevine"

Everybody's talkin' 'bout.  
The secret is out with points of view.  
They're talkin trash and cashin' in  
on the greatest of the latest news.  
Another soul goes down in flames.  
Another name is namin' names

**Refrain:** And you can hear it on the grapevine  
A gory story just to blow your mind.  
And you can hear it on the grapevine.  
Somebody's feeding you another line.  
You don't want to go there!

They're callin' out the cavalry  
on their high horsin' forcin' on me  
to take a stand and lend a hand  
in makin' the emergency.  
And the "ain't it awful" crowd  
is in their glory whisperin' loud so you can... **Refrain**

A little harmless revelry,  
nobody knows but you and me.  
And it's really feelin' grand  
To know somebody that we're better than.  
And the devil's laughin' too!  
He's got a hot spot picked out just you...**Refrain**
