

Love Is a Miracle

By Bob and Debbie Carothers

These days I feel like runnin' through the hills with my face to the sun and
I see a future lookin' so bright now 'cause I see a different light.
I see you and me together walkin' hand in hand.
no matter what the weather. I can forget the past.
The pain is healin' 'cause now I know love is more than just a good feeling.
Love is a miracle (they say it's a game but what do they know?)
Love is truly a miracle (not just a little emotion oh no, no, no, no.)
Just when I thought I was at the end of my rope
you came along and filled my life with hope.
And now I know love is a miracle.

These days I feel like runnin' so c'mon let's have some fun and
We'll go to the waterfall and spend some free time,
Climb on the rocks and leave the world behind.
Just you and me together, I can't think of anything I'd like better.
Than to be with you for the rest of my life.
'cause lookin' at you makes me realize
that love is a miracle (you made a believer of me.)
Love is truly a miracle (I was blind, but now I see.)
When I think about the change your love has made in me
I thank God because it's plain to see
that love is a miracle.

I thought I was cool but I was a fool.
I broke the rules as though love was just a game.
I'd hide from love. I would run away.
But now look at me.
I'm not afraid to say, "I believe!"
that love is a miracle (you made a believer of me.)
Love is truly a miracle (I was blind, but now I see.)
When I think about the change your love has made in me
I thank God because it's plain to see
that love is a miracle.
