

God, Your Son Is Shinin'

God, your Son is shinin'.
Shine down on our road.
God, the world is cryin'.
Help us bear the load.
You made it clear that You'd be here
to nurture the seed you sowed.
God your Son is shinin'
to take away the cold.

God, your Spirit's blowin'
the wind that spreads your song.
Send your message flowin'
and blow the fire on.
Light up the mind of people-kind
before the truth is gone.
Help us to be knowin'
and carry your love along.

God, the world around us
shows your wondrous might.
Let your arms surround us
and hold us in your sight.
In all we do we'll think of You
and try to do it right.
And while your Son is shinin'
we'll be in the light.
